

## **Vertex Standard Exhibiting at ProMat 2013 – The Premier Global Material Handling & Logistics Event in North America**

January 9, 2013 -- Vertex Standard will exhibit at ProMat 2013, the premier showcase of material handling, supply chain and logistics solutions in North America, to be held January 21 – 24, 2013 in Chicago, Illinois, USA. Manufacturing, distribution and supply chain professionals from the United States, Canada, Mexico and over 100 countries around the world attend this event focused on productivity solutions to help attendees streamline operations, maximize efficiency and flexibility, cut costs and maximize supply chain security.

Vertex Standard's booth #1584 will display a range of two-way radio solutions that are well matched for the needs of material handling and supply chain professionals seeking quality mobile radio communications to maximize efficiency and minimize cost. Since 1956, Vertex Standard has been focused in developing durable, compact radios designed through precision engineering that deliver value without sacrificing quality for users to connect without compromise.
